

Technical Data Sheet.

Product Name : Dolomite

Product Number : P3315

Description.

Dolomite is a natural source of calcium & magnesium and is useful as a secondary flux in stoneware glazes and bodies.

Appearance.

A light buff coloured dry granular powder.

Chemical Composition. (weight % oxide analysis).

CaO	:	31.4
MgO	:	20.1
SiO ₂	:	1.1
Fe ₂ O ₃	:	0.5
Al ₂ O ₃	:	0.4
Loss on ignition	:	46.4

Calcium Magnesium Carbonate : 97.8

Moisture (weight % loss at 110 °C : 0.2

Size Grading (weight % passing BS 410 Test Sieves)

3.35 mm	:	100
2.8 mm	:	99
0.125mm	:	10.5
